

**TRAINING DATES FOR DISA DIRECT STOREFRONT Wave 2b
Implementation to include DISA Enterprise CVoIP, Wireless Devices and
Services, Commercial Business Line (CBL), DREN, and Telecommunications
Equipment Only**

**DISA Direct Storefront (DDSF) Wave 2b Implementation to include DISA
Enterprise CVoIP, Wireless Devices and Services, Commercial Business Line (CBL),
DREN, and Telecommunications Equipment Only: Refocused, Redesigned with You
in Mind**

DISA Direct Storefront Wave 2b ecommerce successfully rolled out on 24 November 2014 with DISA Enterprise CVoIP, Wireless Devices and Services, Commercial Business Line (CBL), DREN, and Telecommunications Equipment Only. In this release, Mission Partners (MP) can order DISA Enterprise CVoIP, Wireless Devices and Services, Commercial Business Line (CBL), DREN, and Telecommunications Equipment Only services in a user friendly, e-Commerce-like platform.

DISA Direct Storefront was designed with users and mission partners in mind. Information about the services can be easily discovered, ordered, and tracked through the new application. Leveraging **common processes** on the backend, Storefront enforces consistency in ordering of standard telecommunications and other service requests. In-turn, consistent orders allow implementation of tools and **processes** that deliver automated provisioning, improving order accuracy and speed.

The DDSF PMO offers the following training sessions via [Defense Connect Online](https://connectcol.dco.dod.mil/ddsf-training/) <https://connectcol.dco.dod.mil/ddsf-training/> Bridge# 301-225-5555 DSN: 375-5555 (see Meeting ID below) for Mission Partners (MP), Customer Account Managers (CAMs), DISA Global Support Center (DGSC), DISA Field Offices and the Mobility PMO staff:
